### About This Game

Preventive Strike is a dynamic arcade scroll-shooter created by a single developer. You control an overpowered attack helicopter with the objective to drive the enemy out of your land and make your way to the enemy base and eliminate the threat. They don't know what's coming, but neither do you!

The game has an isometric view on the level, which stands out from the typical for this genre top-down or side view and adds some depth to the environment. The graphics are simple yet eye-catching, with lots of stuff happening on screen. There's no room for boredom.

Key features include most of what you'd expect to see in an arcade shooter: fluid controls, a variety of enemies, power-ups, changing environments, player progression, score, etc.

It is bright.

It is loud.

It is hard.

Is it good? I wouldn't say so.

There is no tutorial to speak of, enemy projectiles seem random and due to the high bloom, it's impossible to dodge them properly. So it's difficult in that way that is not very fun at all.

<https://youtu.be/Yu-8hL4jBnA>. Pros:

[-Graphics](#)

[-Effects](#)

[-Challenging gameplay](#)

[-Original Air Strike 3D feeling](#)

[-fluid gameplay flow](#)

[-cool background change after first playthrough](#)

Cons:

[-Very short \(first 4 levels with a few retrys 30min~\)](#)

[-repetitive enemys](#)

[-controls are not changeable](#)

[-very minimal settings possibilities](#)

[-menu font and design \(duhh\). I enjoyed playing Preventive Strike a lot. The game is very engaging and rewarding. To progress through the levels, I had to focus really hard, but it was totally worth it. Although somewhat short, the game is reasonably priced for the variety of content and plenty of challenge it offers. I am looking forward to future updates from this author!. OMG! i saw this game on steam and just buy it anyway !](#)

[Please continue update this game add some new Heli and maps and new weapons .](#)

[I cheer you up.. insanly difficult.. only if you like getting slapped in the face.](#)
